Forward Looking Statements

Use of Forward-Looking Statements

This presentation contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward looking statements include information, among other things, concerning: our possible or assumed future results of operations; future demands for solar energy solutions; business strategies; technology developments; financing and investment plans; dividend policy; competitive position; industry and regulatory environment; general economic conditions; potential growth opportunities; and the effects of competition.

Forward-looking statements are only predictions based on our current expectations and are inherently subject to risks and uncertainties. They should not be considered guarantees of future results, which could differ materially from the results set forth in, contemplated by, or underlying this presentation.

Factors that could cause actual results to differ materially from our expectations are described in the reports filed by SolarEdge with the Securities and Exchange Commission and we encourage you to review our filings carefully, especially the sections entitled "Risk Factors" in our annual report Form.

SolarEdge undertakes no duty or obligation to update any forward-looking statements contained in this presentation as a result of new information, future events or changes in its expectations.

SolarEdge Solutions

K-SUITE

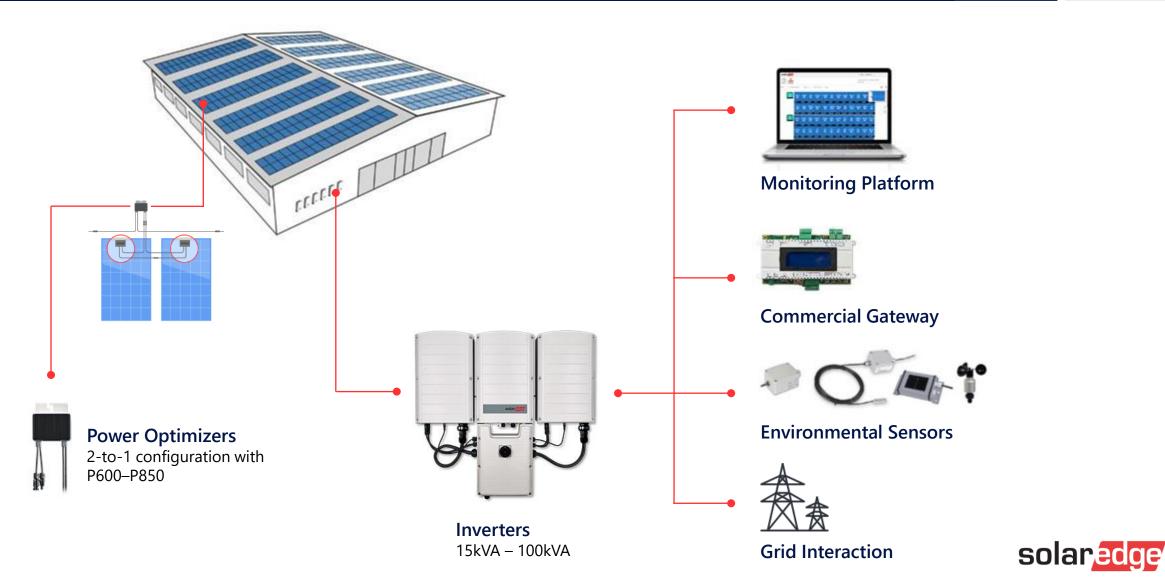

GLOBAL

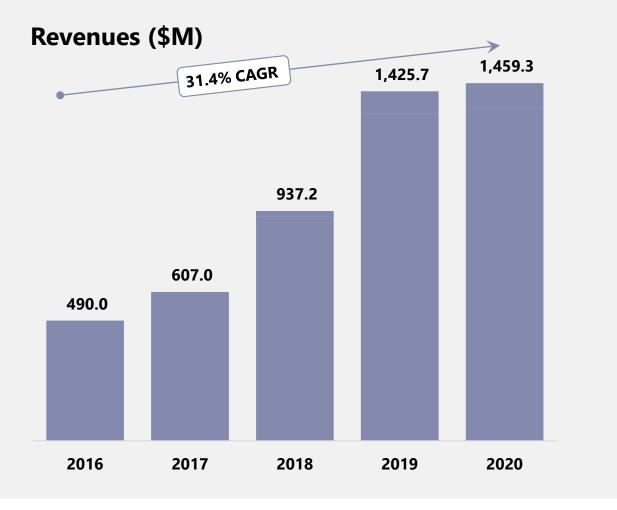

A Complete Residential Solution

The SolarEdge Commercial Solution

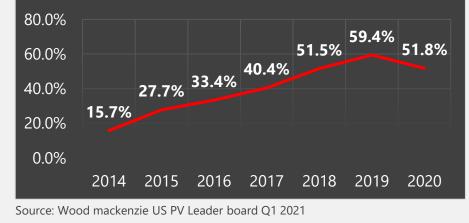

Annual Growth

Our Winning Method

- Strong product offering that answers customers needs
- Sales force focused on demand creation with installers
 - Backed by marketing and service

US Residential Market

Strategic Growth Engines

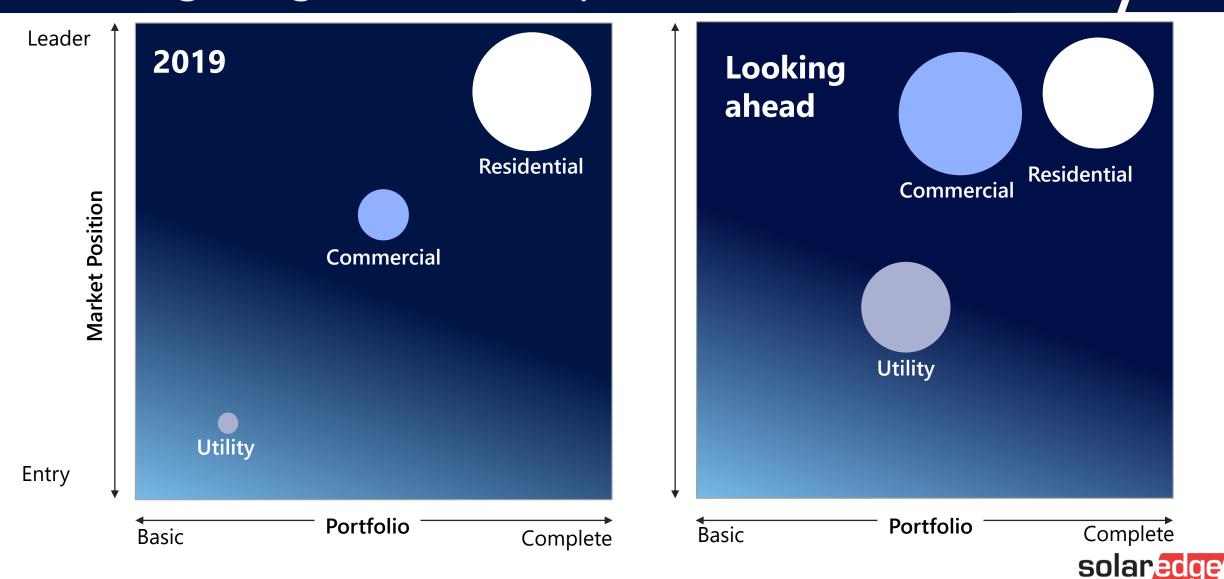

Geographic Expansion

- Systems installed in >130 countries with feet on the ground in the large sustainable ones
- Maintain leadership position in core developed markets
- Significantly grow in new markets to answer demand

Technology Roadmap

Moving Beyond PV

One-Stop-Shop for Smart Energy Solutions

Strengths of SolarEdge Critical Power Division

- Decades of experience designing and manufacturing UPS solutions for various applications
- Competitive product offering for the 3 phase 10 – 500 KW segment
- Significant synergy with SolarEdge R&D, manufacturing and global business infrastructure
- Opportunity for combined backup/UPS energy storage solution

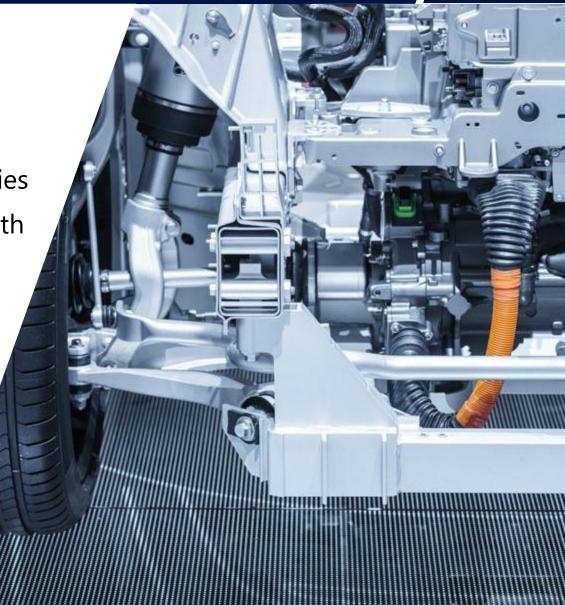

Strengths of Kokam within SolarEdge

- A global Tier 1 provider of innovative battery solutions
- Battery provider for utility-scale ESS, UPS, EV, and more
- Proven technology with more than 685MWh deployed
 - Over 175MWh of utility-scale ESS installed globally
- Access to thousands of installers and EPCs as sales channel
- Innovative cell chemistry technology with long cycle life and high power Li-ion battery
- "Sella 2", a 2GWh Li-ion cell factory under construction expected to begin production in early 2022

SolarEdge E-Mobility Division

- Innovative integrated powertrain technology and electronics for LCVs, LGVs, e-motorcycles
- Innovative and high-performing powertrains with the gearbox, engine, battery, BMS, software, and accessories
- Provides SolarEdge fast-track access to the high-growth global EV market
- Selected as supplier of electric powertrain units and batteries for Fiat E-Ducato (Stellantis)
